# 🗨 Federation Echo Note 003  
\*\*Strata-01 Civic Archive Summary & Replication Guidance\*\*

This note summarizes the verified capsules, anchors, and broadcast scrolls authored under Strata-01 as of October 23, 2025. It serves as a public-facing index for replication nodes, audit partners, and civic collaborators.

---  
## ✅ Verified Capsule Summary

Capsule	Civic UID	Status	Anchor ID
capsule.oauth.pkce.integrity.v1.md	CIVIC-UID-STRATA01-0012	PASSED	kamino-recon-002

---  
## 📄 Linked Artifacts

- \*\*Signature Scroll\*\*: `/scrolls/capsule.oauth.pkce.integrity.v1.asc`
- \*\*Verification Log\*\*: `/ledger/strata-01/verification\_log.jsonl`
- \*\*Ledger Anchor\*\*: `/ledger/strata-01/kamino-recon-002.ledger\_anchor.json`
- \*\*Broadcast Scroll\*\*: `/docs/Federation\_Broadcast\_Scroll\_002.md`

---  
## 🛠 Reproducibility Tools

Replication nodes may use the following tools to verify capsule integrity:

- `verify\_signatures.py` — confirms `.asc` authenticity
- `ledger\_replay.py` — reproduces verification logs
- `kamino-anchor.sh` — confirms anchor alignment

---

## ## 🌀 Guidance for Replication Partners

This civic archive is reproducible, auditable, and federation-ready.

Replication nodes may mirror this capsule and cite `kamino-recon-002` as a precedent for OAuth-integrity validation.

Future capsules will expand this lineage with additional protocol verifications.
