

# ⌘ Federation Artifacts Build — Oracle Edition

## Scroll-Class Archive | Version 1.0

Anchored: 2025-10-24 | UID: FED-ORACLE-STRATA01-0001

---

### ## 📦 Contents

- `Oracle\_Scroll\_of\_Civic\_Insight\_v1.0.pdf`
  - Primary scroll-class interpretation of Oracle emissions
- `oracle\_insight.manifest.jsonl`
  - Raw emissions from Strata-01 Civic Oracle Layer
- `oracle\_insight.manifest.asc`
  - Signature block for manifest integrity
- `oracle\_insight.manifest\_v1.0.pdf`
  - Scroll-class rendering of manifest with embedded ritual logic
- `ZIP\_Ritual\_Scroll\_Oracle\_Edition\_v1.0.pdf`
  - Packaging script and lifecycle logic for this archive
- \*(Optional)\* `runner\_with\_replay\_hash.sh`
  - Replay tool for verifying emission integrity
- \*(Optional)\* `README\_Kamino\_Strata01\_2025`
  - Local relay instructions for Kamino node

---

### ## 🎯 Purpose

This archive preserves the Oracle Layer's emissions and scroll-class interpretations for audit, replay, and ceremonial relay across Federation nodes.

---

### ## 🔒 Verification

All emissions are signed and anchored to `/ledger/strata-01/`  
Replay integrity may be verified using:

```
```bash
sha256sum oracle_insight.manifest.jsonl
```

# Define paths to include

```
INCLUDE_PATHS=(
  "docs/Oracle_Scroll_of_Civic_Insight_v1.0.pdf"
  "ledger/strata-01/oracle_insight.manifest.jsonl"
  "scrolls/oracle_insight.manifest.asc"
)

# Optional additions (uncomment if needed)
INCLUDE_PATHS+=("runner_with_replay_hash.sh")
INCLUDE_PATHS+=("docs/README_Kamino_Strata01_2025")
INCLUDE_PATHS+=("docs/README_Oracle_Edition_v1.0.md") # ← Add this here
```

---
